## Objective

A highly motivated and passionate Front-End Developer with a solid understanding of HTML, CSS, JavaScript, and React. Eager to apply my skills and grow professionally in web development, while continuing to learn and enhance my knowledge of other technologies. Looking for an opportunity to contribute to impactful projects and collaborate with a dynamic development team.

## Education

### Bachelor of computer Applications

Govind Guru Tribal University

### Masters of Computer Applications

Rajasthan Technical University

**July 2021 -August2023**

Banswara, Rajasthan

**August 2023 -November 2025**

Jaipur, Rajasthan

## Projects

### Portfolio website

- Built a personal portfolio website to showcase my skills and projects, using HTML, CSS, and JavaScript.
  - Integrated smooth scrolling and animations to improve user interactions.
  - Design a mobile-first, responsive layout using Flex box and CSS Grid.
- [GitHub](#)

### Task Management App

- Created a task management app with react to add, edit, and delete tasks.
- Implemented React Hooks for state management and used local storage for data persistence.
- Focused on building a clean and intuitive UI with responsive design principle.

[GitHub](#)

### Weather Application

- Developed a weather app that fetches real-time weather data using the open Weather API.
- Ensured dynamic styling and responsiveness using CSS and media queries based on weather conditions.

[GitHub](#)

### E-commerce product page

- Developed a responsive product page using HTML, CSS, and JavaScript, featuring a product image carousel and product details.
- Applied bootstrap for grid layout and used media queries to ensure mobile responsiveness.
